

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 1: Identification of substance / mixture and of the company / undertaking

1.1 Product identifier:

Commercial name:	Tyrec fine rubber powder <ul style="list-style-type: none">• TK 40-40 Mesh• TK 50-50 Mesh• TK 100-100 Mesh
Type of product:	Free-flowing, homogeneous and uniform, black rubber powder derived from end-of-life tyres through granulation and cleaning.

1.2 Relevant identified uses of the substance / mixture – and uses against which we advise:

Relevant, identified uses:	Asphalt modification, flooring, thermal insulation, acoustic insulation, paint, technical rubber compounds, moulded products, automotive interior, new tyres etc.
----------------------------	---

1.3 Details of the supplier of the safety data sheet:

Manufacturer:	Tyrec Ltd. Shahak Industrial Park, P.O.B. 10, M.P. Menashe 37862, ISRAEL
Telephone:	+972 73-7599446
Fax:	+972 4-6350551
E-mail address:	info@tyrec.com
1.4 Emergency telephone no.:	+972 4-6350550

SECTION 2: Hazard identification

2.1 Classification of the substance / mixture: According to Regulation (EC) No. 1272/2008 and its amendments	Products classified as not dangerous.
2.2 Label elements: According to Regulation (EC) No. 1272/2008 and its amendments	Not applicable.
2.3 Other hazards:	<p>Products do not contain any substances classified as PBT or vPvB under REACH Annex XIII.</p> <p>Endocrine disrupting properties – Ecotoxicity: The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</p> <p>Endocrine disrupting properties – Toxicity: The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</p> <p>Rubber dust and air may result in explosive mixtures.</p>

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 3: Composition / information on ingredients

3.1 Substances:	Not applicable.
3.2 Mixtures:	
Vulcanised polymer base:	NR, SBR, BR, IIR/XIIR, originating from end-of-life tyres..

SECTION 4: First aid measures

4.1 Description of first aid measures:	Pay attention to self-protection; remove victims from hazardous area; keep warm; position comfortably and cover well; do not leave affected persons unattended.
In case of inhalation:	Provide fresh air, seek medical advice if necessary.
In case of skin contact:	Wash hands before breaks and at the end of a workday.
In case of eye contact:	With eye held open, immediately rinse thoroughly with plenty of water for at least 15 minutes; seek medical advice if necessary.
In case of ingestion:	Rinse mouth; seek medical advice if necessary.
Self-protection of the first aider:	See general notes above.
4.2 Most important symptoms and effects – immediate as well as delayed:	No information available.
4.3 Indications of any immediate medical attention and/or special treatment needed:	Not relevant.

SECTION 5: Fire fighting measures

5.1 Extinguishing media:	Suitable extinguishing media: Foam, extinguishing powder, CO ₂ , sand or a combination of water and foaming agent. Unsuitable extinguishing media: High-pressure water jet.
5.2 Special hazards arising from the substance / mixture:	Heavy smoke, dangerous vapours in case of fire cannot be excluded.
5.3 Advice for fire fighters:	Remove product from hazard area as soon as possible. Wear protective face mask / respiratory protection due to heavy smoke formation.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:	For non-emergency personnel: no protective equipment or emergency procedures are required. For emergency responders: see section 5.3.
6.2 Environmental precautions:	Products not classified as dangerous for the environment. Keep away from sewage, surface water and ground water.
6.3 Methods and material for containment and clean-up:	To contain spillage, use bags or containers, as granules are solid products. For clean-up, collect mechanically – preferably in dry conditions – by aspiration. Use a dust-ignition proof model, class B1.
6.4 Reference to other sections:	See sections 8 and 13 for further information.

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 7: Handling and storage

7.1 Precaution for safe handling:

Measures to prevent fire:	Take measures against electrostatic discharge. Keep far away from sources of ignition.
Advice on general occupational hygiene:	Avoid dust formation. Provide for adequate exhaust ventilation and dust collection at machinery. Do not eat, drink or smoke in work areas. Wash hands after contact. Remove contaminated clothing and personal protective equipment before entering kitchen or canteen areas. Comply with personal hygiene measures. Ensure proper cleaning of personal protective equipment. Showering at the end of shifts is recommended. Ensure to wash workwear daily.

7.2 Conditions for safe storage, including any incompatibilities:

Technical measures and storage conditions:	Under cover, frost-free and dry, protected from moisture and sun light (UV). Frozen and wet material may result in agglomeration of material. Confined spaces must be well ventilated. Do not store with food or fodder.
Packaging materials:	Keep packaging closed and away from water.
7.3 Specific end use(s):	Except for the indications already specified, no special recommendations regarding the uses of these products are necessary.

SECTION 8: Exposure controls / personal protection

8.1 Control parameters:

Substances, the occupational exposure limit values of which must be controlled in the working environment:	There are no environmental limit values for the substances of which these products consist.
DNEL (workers):	Information not available
DNEL (population):	Information not available
PNEC:	Information not available

8.2 Exposure control:

Appropriate engineering controls:	None
Personal protection equipment:	As a prevention measure, it is recommended to use basic personal protective equipment with CE marking. For more information on personal protective equipment (storage, use, cleaning, maintenance, protection class etc.), consult the information leaflet provided by the PPE manufacturer.
Eye and face protection:	Wear protective glasses with side protection in compliance with CEN: EN 166:2001 / EN ISO 4007:2018.
Skin protection:	Use protective gloves in compliance with CEN: EN 420:2003+A1:2009.
Respiratory protection:	Wear protective face mask in case of generation of dust – in compliance with CEN: EN 149:2001+A1:2009.
Thermal hazards:	Do not inhale vapours from hot product.
Environmental exposure controls:	None

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties:

Physical state:	Free-flowing rubber powder
Colour:	Black
Odour:	Typical rubber smell
Melting point / freezing point:	N/A
Boiling point or initial boiling point and boiling range:	N/A
Flammability:	Data not available
Lower and upper explosion limit	Data not available
Flash point:	> 400°C [DIN EN 50281-2-1 // VDE 0170/0171 section 1503-2-1]
Auto-ignition temperature:	110°C [VDI 2263 page 1]
Decomposition temperature:	N/A
pH:	N/A
Kinematic viscosity:	N/A
Solubility:	N/A
Partition coefficient n-octanol/water (log value):	N/A
Vapour pressure:	N/A
Specific density:	1,100-1,200kg/m ³
Bulk density:	<ul style="list-style-type: none"> • TK 40-40 Mesh 370 kg/m³ • TK 50-50 Mesh 350 kg/m³ • TK 100-100 Mesh 325 kg/m³
Relative vapour density:	N/A
Particle characteristics:	<ul style="list-style-type: none"> • TK 40- particle size 0.1 – 0.5 mm D50=300 micron • TK 50- particle size 0.1 – 0.3 mm D50=230 micron • TK 100- particle size 0.06 – 0.25 mm D50=100 micron

9.2 Other information:

Explosives / desensitised explosives:	Depends on fraction sizes, processes and environmental conditions.
Flammable gases / liquids:	N/A
Aerosols / gases under pressure:	N/A
Oxidising gases / liquids / solids:	N/A
Flammable solids:	N/A
Self-reactive substances and mixtures:	N/A
Self-heating substances and mixtures:	N/A

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 9: Physical and chemical properties – cont.

Pyrophoric liquids / solids:	N/A
Substances and mixtures, which emit flammable gases in contact with water:	N/A
Organic peroxides:	N/A
Corrosive to metals:	N/A

SECTION 10: Stability and reactivity

10.1 Reactivity:	Products not reactive under normal conditions
10.2 Chemical stability:	Stable under recommended storage conditions
10.3 Possibility of hazardous reactions:	May react with strong, acidic oxidants
10.4 Conditions to avoid:	Avoid fire, as CO, CO ₂ , SO ₂ , SO ₃ , different nitrogen compounds, minor amounts of HCL and/or HBr may then be released
10.5 Incompatible materials:	Acid oxidizing agents
10.6 Hazardous decomposition products:	Carbon monoxide and carbon dioxide may be released

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008:	In respect of toxicological properties, no experimental data are available for the products.
Acute toxicity:	Data not available
Skin corrosion / irritation:	Data not available
Serious eye damage / irritation:	Data not available
Respiratory or skin sensitisation:	Data not available
Germ cell mutagenicity:	Data not available
Carcinogenicity:	Data not available
Reproductive toxicity:	Data not available
Specific target organ toxicity (STOT) – single exposure:	Data not available
Specific target organ toxicity (STOT) – repeated exposure:	Data not available
Aspiration hazard:	Data not available
11.2 Information on other hazards:	
Endocrine disrupting properties:	Products do not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
Other information:	See section 2 "Hazard Identification".

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 12: Ecological information

12.1 Toxicity:	Products are non-water-soluble, micronised rubber powders Acute toxicity: data not available Chronic toxicity: data not available
12.2 Persistence and degradability:	Biodegradation: data not available
12.3 Bioaccumulative potential:	Data not available
12.4 Mobility in soil:	Data not available
12.5 Results of PBT and vPvB assessment:	Data not available
12.6 Endocrine disrupting properties :	Products do not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
12.7 Other adverse effects:	Data not available

SECTION 13: Disposal considerations

13.1. Waste treatment methods:	<p>Handling in accordance with good industrial hygiene and safety practices.</p> <p>Products are not classified as hazardous according to the criteria of the CLP [Regulation (EC) No. 1272/2008], nor is the waste generated hazardous (empty packaging and product or non-compliant product remains) according to the criteria set out in Commission Regulation (EU) No. 1357/2014 of 18 December 2014.</p> <p>The responsibility for waste classification lies with the producer of waste, and waste classification must follow the methodology presented in Commission Decision 2014/955/EU of 18 December 2014, considering the waste-generating processes/ activities in question.</p> <p>Empty packaging and product waste shall be delivered to a Licensed Waste Management Operator for the best recovery and/or disposal options, in accordance with local regulations complying with Directive 2008/98/EC.</p> <p>Disposal through the sewage system is not recommended.</p> <p>The transportation of residues in national territory must comply with local rules and regulations.</p>
--------------------------------	---

SECTION 14: Transport information

These products are not subject to transportation regulations.

14.1 UN number or ID number:	N/A
14.2 UN proper shipping name:	N/A
14.3 Transport hazard class(es):	N/A
14.4 Packing group:	N/A
14.5 Environmental hazards:	N/A
14.6 Special precaution for user:	N/A
14.7 Maritime transport in bulk according to IMO instruments:	N/A

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations / legislation specific for the substance / mixture:

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the registration, evaluation, authorisation and restriction of chemicals (REACH), and its amendments: Limitations on the marketing and use of certain dangerous substances and mixtures (Annex XVII): Candidate substances for authorisation: Substances included in Annex XIV (authorisation list) and expiry date:	Compliance with restrictions 28 and 50 Not applicable Not applicable
Commission Regulation (EU) 2020/878 of 18 June 2020 on requirements for Safety Data Sheets:	Applicable
Regulation (EC) No. 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, and its amendments:	Not applicable
Regulation (EC) No. 1005/2009 of the European Parliament and of the Council of 16 September 2009 on substances that deplete the ozone layer:	Not applicable
Regulation (EU) No. 528/2012 of the European Parliament and of the Council of 22 May concerning the placing on the market and use of biocidal products:	Not applicable
Regulation (EC) No. 850/2004 of the European Parliament and of the Council of 29 April 2004 on persistent organic pollutants:	Not applicable
Regulation (EU) No. 649/2012, of the European Parliament and of the Council of 4 July 2012, concerning the export and import of dangerous chemicals and Regulation (EU) No. 649/2012:	Not applicable
Directive no. 2012/18/EU, of the European Parliament and Council of July 4, 2012 (Seveso III Directive):	Not applicable
Directive no. 2009/161/EU, of the Commission of 17 December on the protection of workers' health and safety against risks related to chemical agents at work:	Not applicable
Directive 2008/98/EC of the European Parliament and of the Council, of 19 November 2008:	Applicable
Regulation (EU) No. 1357/2014 of the Commission of 18 December 2014 - Classification of the hazardousness of waste:	Not applicable
Commission Decision 2014/955/EU of 18 December 2014 - European Waste List:	Applicable
Particular provisions regarding the protection of people or the environment:	It is recommended to use the information compiled in this safety data sheet as input for a risk assessment of local circumstances with the aim of establishing the necessary risk prevention measures for the handling, use, storage and disposal of these products.

15.2 Chemical safety assessment:

The supplier has not carried out a chemical safety assessment for these products, as products are not classified as hazardous (according to Regulation (EC) No. 1272/2008 and its amendments), and a chemical safety assessment consequently not required.

SAFETY DATA SHEET

(EC 1907/2006, amended by EU 2015/830) | January 2025 - version 5.0

SECTION 16: Other information

History of revisions:	This revision was designed to respect the structure and contents required for a Safety Data Sheet in accordance with Commission Regulation (EU) 2020/878 of 18 June 2020.	
Legend of abbreviations and acronyms used:	CAS	Chemical Abstracts Service number - numerical identifier specific to each substance and its structure.
	CE	European Conformity
	CEN	European Committee for Standardization
	DNEL:	Derived no-effect level
	PPE:	Personal protective equipment
	UN:	United Nations
	PBT:	Persistent, bioaccumulative and toxic
	PNEC:	Predicted no-effect concentration
	vPvB:	Very persistent, very bioaccumulative
Bibliographical references and data sources:	https://eur-lex.europa.eu https://www.echa.europa.eu/pt/web/guest/home	
Classification procedure:	Not applicable, as products are not classified as hazardous (according to Regulation (EC) No. 1272/2008 and its amendments).	
List of relevant hazard and/or precautionary statements:	Not applicable, as products are not classified as hazardous (according to Regulation (EC) No. 1272/2008 and its amendments).	
Training advice:	Minimum training in occupational risk prevention is recommended for staff handling these products in order to facilitate the understanding and interpretation of this safety data sheet.	
The information provided in this safety data sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given only serves as a guidance for safety handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. Genan is not liable for missing or incorrect information, nor any consequential damage suffered due to the use of this document.
